RESIDENT COMMENTS

The Leeds Housing Authority has engaged in an extensive process of seeking resident comments on our Agency Plan. In the course of compiling the Plan we engaged in the following process:

On April 17, 2000, a meeting of the Resident Advisory Board and the Board of Commissioners of the Authority was held. Five members of the RAB were present and three Commissioners. The Agency Plan was presented for review and comment. An overview of the Quality Housing and Work Responsibility Act was presented. The expected changes raised numerous questions and comments. The pet policy was discussed.

On April 18, 2000, a public hearing was held with four members of the RAB and three Commissioners present. In addition, twenty residents attended the hearing and one Councilman for the City of Leeds. Again, an overview of the Quality Housing and Work Responsibility Act was presented. The residents were offered an opportunity to ask questions, make comments and complete a questionnaire to insure the plan addressed all resident concerns. The majority of the comments received address physical improvements requested, such as air conditioning, or controlling children in the neighborhoods.

On April 25, 2000, a second meeting of the RAB and the Commissioners was held. Five members of the RAB were present and four Commissioners. Those present reviewed the comments and determined that no comment had been received that directly affects the items in the Plan. Therefore, the RAB made a recommendation that the Board of Commissioners adopt the Plan as presented. The Commissioners approved a motion to adopt the Agency Plan and instructed the Director to complete the submittal process via internet to Washington and deliver a hard copy to the HUD office in Birmingham.

SECTION XXVI. DECONCENTRATION RULE

1. Objective: The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the housing authority does not concentrate families with higher income levels, it is the goal of the housing authority not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The housing authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.
2. Actions: To accomplish the deconcentration goals, the housing authority will take the following actions:
 - A. At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous housing authority fiscal year.
 - B. To accomplish the goals of:
 - (1) Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, and
 - (2) Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, the housing authority's Tenant Selection and Assignment Plan, which is a part of this policy, provides for skipping families on the waiting list to accomplish these goals.
